CO ORDER 261175LRH   SECRET   1   5285

DGUS ccCSG   26 Nov 75
ccGW
ccPERS PRO   PROGRAM LRH SECURITY
        CODE NAME: POWER

1. Maintain an alerting Early Warning System throughout
the CO N/W so that any situation concerning govts
or courts by reason of suits is known in adequate time
to take defensive actions to suddenly raise the level
on LRH personal security very high. DGUS _____

2. Begin at once to build up a USB AG office
that is permanent and effective in all Bus
both to take this load off LRH and CSG lines and
to proof up the USB against catastrophes in any
Bu. area. The USB area is the most sensitive area
you now have in US or international operations and
the AG office there should be commeasurate with
the importance and potential threat of the existing
scene.   GW, DGUS _22·3·77_

3. Really attain PROAC in the CW operating area
for the organizations operating there, sort out
any weak spots or potential threats internal or
external and handle, concentration in this target
being upon the operation itself and its contacts
and internal personnel. Dynamite spots should
be predicted far in advance (example Non-US
registration cycle which I am having to push)
and handled before any repercussion occurs.
                   DGUS _22·3·77_

4. Get in a stream of reports by making the
USB-GOW reporting cycle from USB AG office very fast
and positive, with this line running directly
to the CO on its own N/W channels independent
of LRH-CSG lines. These lines come back from
GOUS and GW to LRH-CSG, not from USB to LRH-
CSG for local handling. Put a terminal in at
GOUS that coordinates USB as a single-hatted
action.   GW, DGUS _Done 31. May_

5. Develop a specific set of stats for the
USB CO Office that reflect the reality of the
existing scene, including every BU. DGUS _Done SW 19·2·76_

6. Push the stats into Power. GW, DGUS _____

                         LRH
